MAHIMA YANDE

Software Development Engineer

+91 9673730944 | mahima.yande21@gmail.com | LinkedIn | GitHub

SUMMARY

6+ years experience as a Full Stack Developer, highly skilled in web page development, Front-end Development, Back-end Development, Unit Test, Android, PL-SQL, etc. across the complete SDLC of the product. Skilled in translating business ideas to platform features using front-end technologies like React, Bootstrap, AG-Grid, and CSS, with full support for Desktop, tablets, and mobile. Adept at end-to-end software design & development including understanding designs from Figma. Handled complex projects, managed & coordinated work very efficiently to deliver results.

TECHNICAL SKILLS

- **Programming Languages:** HTML5, CSS3, JavaScript, Bootstrap, Redux, JSX, Typescript, Android, GitHub, Rest APIs,
- **Frameworks:** React, Cypress, AG-Grid, React Testing Library, Micronaut
- **Tools/ IDE:** Figma, Git, JIRA, VS Code, IntelliJ

WORK EXPERIENCE

ISS Stoxx   **Jan 2022 - Present**
Software Development Engineer
- Working as part of the redesign team for migrating an established enterprise software product with a high volume of financial data flow to a new interface and back-end.
- Creating reusable components for Web Pages using React, TypeScript, AG-Grid and Redux for state management.
- Establishing best practices for the code base as a project goes on, using ES-Lint to maintain clean and consistent code throughout the project.
- Writing Unit Tests using Jest and react-testing-library to ensure high code quality.
- Involved in wring back-end micro-services using Java and connecting the micro-services to the front-end using REST APIs
- Have worked on Development of JIRA Tickets, involved in planning the Sprint and given Demos in Sprint Review.

TCS   **Jun 2019 - Dec 2021**
System Engineer
- Designed and developed responsive and dynamic web applications using ReactJS, ensuring high performance and a seamless user experience.
- Collaborated with cross-functional teams to implement new features and improve existing functionality, maintaining clean
- and reusable code practices.
- Diagnosed and resolved critical issues reported by clients, consistently meeting tight deadlines and maintaining high-quality standards.
- Created and optimised PL/SQL scripts with minimal errors, enhancing back-end functionality.
- Proficient in writing and executing complex SQL queries to meet business requirements.
- Performed seamless code migration across different environments, ensuring continuity and reliability during transitions.

INTERNSHIPS

Frontend developer, TAPS
- Worked as a Web Developer to develop web pages by using scripting languages.

Android Developer, Trivia Softwares
- Worked as a Android Developer to develop "BMI Calculator"– An application that calculates BMI of Person and save the data in database.

EDUCATION

B.E. Information Technology   **Aug 2015 - May 2019**
Vidyavardhini's college of engineering and technology
8.9 CGPA
